

extreme marine

Poster competition

S1 and S2
Win a digital
camera

The oceans connect the world from the tropics to the polar regions. They support an amazing variety of life, determine the weather and provide us with food, energy and leisure resources.

Research an issue such as loss of marine biodiversity, climate change or human impact through tourism, industry or pollution. Then produce a poster depicting why you think this issue is important.

Print your name, year and school on the reverse of your poster.
Send your entries by Friday 28th June 2011 to:

The University of Aberdeen Natural History Centre
Zoology Building, Tillydrone Avenue,
Aberdeen AB24 2TZ
