Highlights From A Busy Year So Far

equinor

We invited Secondary School pupils to join us at R&U for Heroes of Tomorrow in January.

Wish you were here at Caithness Science Festival in March.

Ben Garrod came with his 'So You Think You Know About Dinosaurs' show in April.

In May we attended MayFest and had our Dome in the Sir Duncan Rice Library.

Did you see us at the Aberdeen Highland Games in June. We had a fab day in the sun.

Have you seen us at your local library over the summer holidays as part of our Eureka programme.

TechFest 2019

Public Programme

BP and Shell are proud, as Joint Principal Sponsors, to welcome you to TechFest 2019 as we celebrate the 26th annual festival of Science, Technology, Engineering and Mathematics (STEM).

We are delighted to support the public programme of fascinating events, which allow audiences to explore science, technology, engineering and maths. The varied programme encourages visitors to get involved in STEM activities throughout the North-east of Scotland through the exciting variety of shows, presentations and workshops on offer.

By supporting TechFest 2019 we aim to provide both enjoyment for the public and inspiration for the next generation of scientists and engineers. We look forward to another successful festival.

Ariel Flores
Regional President
BP North Sea

Steve Phimister
Upstream Director U.K. & Ireland
Shell U.K. Limited

TECHFEST 2019

ACTIVITY WEEKEND

Saturday 24th & Sunday 25th August

TechFest offers people of all ages the opportunity to gain hands-on experience with science and technology. It fires the imagination by allowing young people the chance to try things out themselves and to ask questions directly to experts, hopefully encouraging many to choose a career in science and technology. It is a hugely successful event for Aberdeen and one which Marathon Oil is proud to support.

James Edens
Vice President, Conventional
Marathon Oil Corporation

Marathon Oil

Entertaining Science Circus Show

SHOW

Presented by Dr Ken Farquhar,
Inspirational Science

Roll up, roll up it's time to check out the science of the circus. Champion Juggler & practicing scientist Dr Ken explores the scientific principles behind the thrills and spills of skilful tricks and impossible stunts. Find out why jugglers love gravity, how clowns use the force of a Jedi and why unicyclists keep moving to stay still. It's science but not as you may know it!!!

Roxy and her Rock Pool Friends

 **Marathon Oil**

SHOW

Presented by Live Wire Productions

Roxy visits her favourite rock pool friends, the Laughing Limpet, the Boring Barnacles, the Prickly Prawns, Starry, the Sea Star, Aggie Anemone and the Creepy Crab on a warm summer's day. They exchange ideas and their feelings with the help of CC, their magical friend and her happiness song.

**ROBERT GORDON
UNIVERSITY ABERDEEN**

VENUE OPENING TIMES

Saturday 24th and Sunday 25th August,
09.30 – 16.00 each day.

The Sir Ian Wood Building, Robert Gordon University,
Garthdee Campus, Aberdeen, AB10 7GJ

ADMISSION COSTS

With over 30 hands-on workshops, shows and demonstrations, the TechFest Activity Weekend continues to provide fun, exciting and inspiring activities for all ages. No need to pre-book as this year we are 'In for a Penny, In for a Pound' adults pay £1 and children pay 1p.

PICNICS & PACKED LUNCHES

Although there are catering providers on site please feel free to bring your own food and soft drinks.

BUGGIES & PUSHCHAIRS

We have provided a Buggy Park at the Activity Weekend. Please be aware that it is not staffed and items are left at the owner's risk.

BABY CHANGE AREA

There will be a Baby Change area provided at the Activity Weekend.

FIRST AID

If you require First Aid Treatment - please visit the ABRRAS stand.

Booking Information - See page 30

A Breath of Fresh Air

SHOW

Presented by Jon Davies, thinkscience

What is Air? Why doesn't it just float off into Space? Can you see it? Can you feel it? Is it pushing on you? Is it part of you? Find out more in 'A Breath of Fresh Air'.

The Chemistry of Cooking

Presented and Supported by Robert Gordon University School of Pharmacy and Life Sciences

In cooking, everything is chemistry! Whether you knead bread, bake a pie, or roast meat, chemical reactions are taking place. Food is just a complex mixture of chemicals and cooking can be thought of as a series of chemical reactions. Cooking may be the oldest and most widespread application of chemistry, and recipes the oldest practical result of chemical research.

The TechFest Dome

Presented by TechFest | Sponsored by Apache

Enjoy a visit to the unique environment of the TechFest Dome. Find out why we have day and night, wonder at a sky full of stars and discover the constellations.

NOT SUITABLE FOR UNDER 5 YEARS, BOOK ON THE DAY AT THE DOME.

Programming Lego Robots

Presented and Supported by Robert Gordon University School of Computing

Self-driving cars are just around the corner! Learn how to program a self-driving Lego Mindstorms robot. Watch as it navigates a maze.

Make the Future with Shell

Sponsored and Presented by Shell in conjunction with Aberdeen Science Centre

We believe the answers to tomorrow's energy challenges lie in the power of people's ingenuity, and that together we can #makethefuture today. Come and explore Science, Technology, Engineering and Maths with lots of fun, exciting and challenging hands-on activities for the family.

Construct your own toy racing car powered by salt water, produce an electronic drum kit with the Makey-Makey kits, use everyday household materials to create your own science experiment and enter our Engineering challenges.

Build and Program Lego Robots

Presented by John and Mary McGill of ComputerExplorers Sponsored by BP

Join us for a fun-packed session of exciting, creative and fun computer activity. Using the latest Lego robotics technology to build and program amazing creatures that can move using motors, gears and wheels. You will learn how to program sensors to make the robot react to its surroundings. Program robot birds to chirp, crocodiles to snap and plane engines to rev! This drop in workshop is great fun and ideal for nurturing and enhancing Science, Technology, Engineering and Maths (STEM) skills.

Tremendous Trees

Presented by the Duthie Park Ranger Service

Do you know your Beech from your Birch? Come and meet the Rangers and work on your identification skills, by the time you 'leaf' you will know a tree both inside and out, and also learn some other interesting facts along the way!!

Yoga Science

Presented by Rona Main and Sandra Cook
 Jointly sponsored by Grampian Yoga Association,
 Yoga Scotland and British Wheel of Yoga

A scientific led discovery of our amazing bodies and minds through Yoga. This fun session uses Yoga postures to learn about your skeleton & muscles, understand movement, and to gain an awareness of some of the body's clever systems. By getting on a mat in your socks to take part in Yoga, you will discover the importance of strong, flexible and balanced healthy bodies; and how this benefits the mind. Through simple relaxation techniques, you may also feel the effects Yoga has on encouraging better breathing, positive thoughts and a healthy attitude. Learn, develop an awareness of your potential and have lots of fun at Yoga Science.

Age Range: 4 – 16 years
 Running Time: 30 minutes

PARENTS AND CARERS TO BE IN ATTENDANCE AND CAN TAKE PART, BOOK ON THE DAY AT THE WORKSHOP

ABRRAS and Dinky Doctors... Saving lives

Presented by ABRRAS

Come and meet the team to find out more about First Aid. Name the bones, learn CPR, use a defibrillator and many more activities. We are also the home of Dinky Doctors which is first aid training for children aged 3-12 years, see our Teddy Ambulance, meet Mr Teddy and find out more in our Dinky Hospital!

Home Energy Scotland

Cutting down on how much energy you use, whether at home, school or work, can help save money, energy and the environment. Come and visit us and try out our fun and interactive games, and benefit from our top tips and advice – all designed to help you reduce your carbon footprint.

The UV Drawing Room

Presented by Kenny Bean

Enter the UV Drawing Room and create amazing drawings together using UV torches and special templates. You'll discover amazing facts about UV light and the history surrounding its discovery while you doodle across the light sensitive tables!

Making Things Move

Presented and Supported by Robert Gordon University School of Engineering

How do we generate movement in different forms of transport? What is it that keeps us moving and, more importantly, what will stop us moving? We will use some demonstrations and hands-on experiments to investigate these important questions.

Powering The Future

Presented by Glasgow Science Centre

Energy underpins our modern lives but there are difficult choices to be made about how we will supply and use energy in the future. Is our energy affordable, secure and environmentally sustainable? As you explore these interactive hands-on exhibits, you can explore our energy options – from how we can produce electricity and fuels to how we can be smarter with our use of energy. What would you do?

The Critter Keeper

Presented by The Critter Keeper

Meet The Critter Keeper and a selection of his amazing exotic animals. Come and chat with David and learn some interesting facts about some weird but wonderful animals. You may also get the opportunity to touch and hold some too. Suitable for all ages, The Critter Crew will amaze you.

Build It

Presented by Aberdeen Science Centre

Discover the engineering skills needed and take part in a range of Built It challenges from our overhanding challenge to building the strongest shape with magnets.

Brilliant Brains

Presented by TauRx Therapeutics, University of Aberdeen

In this workshop you can learn more about the different areas of the brain while painting a little model to take home. Or learn about internal structures such as the hippocampus by solving fun memory puzzles with us. This part of the brain is responsible for your memories and is affected in diseases such as Alzheimer's. Come talk to us to learn more about this disease or get your memory tested by us!

Maths Week Scotland

Presented and Supported by Robert Gordon University School of Pharmacy and Life Sciences

Join TechFest as we celebrate the up-and-coming Maths Week Scotland by exploring a series of interactive puzzles and challenges. This hands-on session will be accessible and fun for all ages. We look forward to seeing you there to experience the joy of maths in exciting new ways. Visit Maths Week Scotland at www.mathsweek.scot or follow us @mathsweekscot on Twitter.

K'NEX Under the Sea with Subsea 7

Presented by TechFest | Sponsored by Subsea 7

Discover the unique challenges of exploring the subsea world. Find out how science and technology can push the limits of this intriguing environment. Learn about how people dive and work under the sea and how technology can help us go even further.

Toddle Fest

When they're little, playing is just another way of learning. Let your under 5's discover the fun of playing in our soft play area, an ideal place for TechFest's youngest visitors.

Clinical Skills at Foresterhill with Teddy Bears Hospital and AUPS

Supported and Presented by the University of Aberdeen Medical School Clinical Skills Centre and Teddy Bear Hospital with AUPS Save a Child's Life

Don't forget to bring your own teddy!!

Come along and join the Medical School Clinical Skills Teaching Team and find out how we train healthcare professionals of the future using the latest state of the art technology with our family of Human Patient Simulators and 360 degree cameras.

As always for our younger clinical skills trainees don't forget to bring your teddy bear or soft toy to the Teddy Bear's Hospital for a check-up. You can even watch and assist the doctors in the operating theatre as they help a teddy bear get better.

Artroom at TechFest

Presented by Grampian Hospitals Art Trust

Join Grampian Hospitals Art Trust's Artroom team to explore the world of Mark-1, the world's first whole body MRI scanner which is currently on permanent display in The Suttie Arts Space in Aberdeen Royal Infirmary. Explore how the first hand drawn images of a scanned mouse were created and colour in your own version.

Maths Around the World

Presented by TechFest | Sponsored by Chevron

A fun, hands-on maths workshop designed to challenge and build confidence. A variety of puzzles, representing different countries, are set out around the room. In small teams, pupils travel around each puzzle with a customised passport logging the countries they have visited. Help and encouragement is at hand and solutions checked.

GPSticket

Join GPSticket at our activity station and enjoy the chance to start collecting our local attractions. Brand new for TechFest 2019 you can also take part in the Festival treasure hunt! Stick with us we are going places.

Geology Rocks

Presented by TechFest | Sponsored by CNR International

Get your hands on some exciting rocks in this interactive workshop, learn about natural processes that have shaped the surface of the earth and delve underground to explore what lies beneath.

Apollo 7

Presented by TechFest | Sponsored by TechnipFMC

Ensuring astronaut safety is one of the biggest challenges faced by NASA engineers. Work as a team to apply physics and engineering principles in a dynamic and creative way to bring an astronaut safely back to Earth.

Beat the Bugs

Presented by NHS Grampian Antimicrobial Management Team

Come and find out about some amazing characters from the world of microbes. Microbes or micro-organisms are living things only visible under a microscope. They live in us and all around us and they come in all shapes and sizes. Some are useful for humans; some deadly! Antibiotics kill bugs called bacteria that cause infections. At our workshop you can create your own superbug, learn how bugs spread infections with the Shrek snotgun, find out some interesting facts about antibiotics and go home with some top tips on how to beat the bad bugs.

STEM through the Ages

Presented by TechFest | Sponsored by Premier Oil

History is all around us, but have you ever considered how Science, Technology, Engineering and Maths have impacted on the ancient world? Investigate the challenges that civilisations overcame to make their environments safer. Discover how they were able to navigate incredible distances successfully and learn how to do it yourself.

Wild About Maths

Presented by TechFest | Sponsored by Marathon Oil

Take a walk on the wild side with TechFest as you undertake puzzles, challenges and problem solving activities inspired by the natural world. In these hands-on maths activities you can work through a series of puzzles designed to challenge your idea of how much fun maths can be.

RGU Innovation Hub

Presented by Robert Gordon University Innovation Team

Meet the Robert Gordon University Innovation Team at our on-campus co-working space. Find out how we support entrepreneurs, what the future of work will look like and the range of start-up businesses we have helped develop.

Dolphinwatch

Presented by RSPB Scotland

Join RSPB Scotland to learn more about the local Dolphinwatch project, learn what amazing marine wildlife can be seen in Aberdeen City and find out ways you can protect them. Join in with lots of activities from our popular bycatch challenge where you race against the clock to rescue the animals to our disturbance game where you learn more about why dolphins need space to swim while testing your throwing aim. We will also have an exciting lock box challenge, come along to find out more!

Woodland to Waves: Environmental Detectives

Presented by JNCC, SEPA and Saving Scotland's Red Squirrels

Become an environmental detective today! Join us on a journey down the river, through woodlands to the sea and help us to identify and protect the UK's incredible animals and habitats on the way.

Amazing Aberdeen

Presented by TechFest | Sponsored by Equinor

Come and learn about the scientists and engineers who have made Aberdeen the incredible city it is!

NASA Space Zone

Join us in our Space Zone for hands-on practical activities with an out of this world twist.

Innovate your world, connect with BECS

Take part in therapeutic sensory activities with BECS who provides specialist play, leisure and sensory activities for all children including those with additional support needs and their families.

Our industry is driven by technological advancement and it is the 'aha' or eureka moments that often develop into more innovative and efficient ways to safely explore for and produce oil and gas. By supporting initiatives like TechFest's Eureka Series we hope to encourage and inspire the next generation of industry professionals that can drive our industry forward with their game-changing ideas.

Greta Lydecker, Managing Director
Chevron Upstream Europe

TechFest Eureka Summer Series in the Library

As part of our Eureka Series sponsored by Chevron, TechFest has organised a series of Summer activities to be held across Aberdeen and Aberdeenshire.

If you would like more information, please contact TechFest at enquiries@techfest.org.uk

Children, from 4 – 12 years, will be given the opportunity to test their science, engineering and maths skills through a number of hands-on workshops including using science to solve mysteries, completing puzzles and designing and building.

If you would like to attend, please contact your local library.

The cost of each workshop is £1 per child, please note all children must be accompanied by an adult.

STEM through the Ages

Presented by TechFest

The past is the key to the future, learn about the Science, Technology, Engineering and Maths behind ancient civilisations. Eureka workshops give children the opportunity to discover historical science secrets through experimentation and play.

Workshops cover the following topics: Effective Egyptians, Glorious Greeks, Resilient Romans, Valuable Vikings

Friday 2nd August, 2019

Mastrick Library, Greenfern Road, Mastrick,
Aberdeen, AB16 6TR

Suitable For	Activity	Time
P1-3	Glorious Greeks	14.30 – 15.15
P4-7	Valuable Vikings	14.30 – 15.15
P4-7	Glorious Greeks	15.30 – 16.15
P1-3	Valuable Vikings	15.30 – 16.15

Thursday 8th August, 2019

Tillydrone Library, Tillydrone Community Campus,
Hayton Road, Aberdeen AB24 2UY

Suitable For	Activity	Time
P1-3	Glorious Greeks	10.30 – 11.15
P4-7	Valuable Vikings	10.30 – 11.15
P4-7	Glorious Greeks	11.30 – 12.15
P1-3	Valuable Vikings	11.30 – 12.15

Tuesday 6th August, 2019

Cruden Bay Library, Station Road, Cruden Bay,
AB42 0NL

Suitable For	Activity	Time
P1-3	Glorious Greeks	10.15 – 11.00
P4-7	Valuable Vikings	10.15 – 11.00
P4-7	Glorious Greeks	11.15 – 12.00
P1-3	Valuable Vikings	11.15 – 12.00

Friday 9th August, 2019

Ferryhill Library, Fonthill Road, Ferryhill,
Aberdeen, AB11 6UP

Suitable For	Activity	Time
P1-7	Glorious Greeks	14.30 – 15.15
P1-7	Valuable Vikings	15.30 – 16.15

Tuesday 6th August, 2019

Peterhead Library, 51 St Peter Street, Peterhead,
AB42 1QD

Suitable For	Activity	Time
P1-3	Glorious Greeks	14.00 – 14.45
P4-7	Valuable Vikings	14.00 – 14.45
P4-7	Glorious Greeks	15.00 – 15.45
P1-3	Valuable Vikings	15.00 – 15.45

Tuesday 13th August, 2019

Buckburn Library, Kepplehills Road, Buckburn,
Aberdeen, AB21 9DG

Suitable For	Activity	Time
P1-3	Glorious Greeks	14.30 – 15.15
P4-7	Valuable Vikings	14.30 – 15.15
P4-7	Glorious Greeks	15.30 – 16.15
P1-3	Valuable Vikings	15.30 – 16.15

Wednesday 7th August, 2019

Portlethen Library, Community Campus,
Bruntland Road, Portlethen, AB12 4QL

P1-3	Resilient Romans	11.30 – 12.15

TECHFEST 2019

PUBLIC PROGRAMME

The energy industry depends on advances in science, technology, engineering and maths. Investing in science is key for us to be able to provide the world with the energy it needs in a sustainable way.

TechFest offers something for everyone in STEM – it promotes young children's natural curiosity as well as offers opportunities for secondary pupils to gain an insight into subjects for future studies or careers.

We are proud to play our part in inspiring the next generation of scientists and engineers with TechFest to improve the world in which we live. We call them our 'Heroes of Tomorrow'.

Hedda Felin, Senior Vice President
Equinor UK and Ireland Offshore

Activity Weekend TechFest Goes Quiet

For families with children who have additional support needs, we have opened up our festival to allow you to enjoy the events as a family at your own pace in a safe, supported environment away from the hustle and bustle of the crowds.

After you have enjoyed all the workshops, relax with a cup of tea or juice.

TechFest is happy to support your individual requirements, please contact us to discuss how best we can support you or for more details at Enquiries@techfest.org.uk.

Date: Saturday 24th August 2019
Time: 16.00 -18.00
Cost: Adults £1, Children 1p pay on the door
Venue: Sir Ian Wood Building, Robert Gordon University,
Garthdee Campus, AB10 7GJ

EUREKA SERIES

Sponsored by

EUREKA DAY AT

ADEN COUNTRY PARK

Saturday 31st August, 10.15 – 16.00 (last entry 15.30)
Aberdeenshire Farming Museum at Aden Country Park,
Station Road, Mintlaw, Peterhead AB42 5FQ
£2, Under 3's free

TechFest is coming to Aden Country Park. Join us for a fun filled day of STEM, Science, Technology, Engineering and Mathematics as part of this year's TechFest Eureka Series sponsored by Chevron. With hands-on activities and workshops, this interactive experience provides inspiring activities for all ages. **Bring a packed lunch and stay all day.**

Roxy and her Rock Pool Friends

SHOW

Presented by Live Wire Productions

Roxy visits her favourite rock pool friends, the Laughing Limpet, the Boring Barnacles, the Prickly Prawns, Starry, the Sea Star, Aggie Anemone and the Creepy Crab on a warm summer's day. They exchange ideas and their feelings with the help of CC, their magical friend and her happiness song.

Show Times throughout the day.

Slime Academy

TECHFEST

Join the TechFest team at our Slime Academy as we explore different ways to make your perfect Slime. Fun for all the family this workshop will add some sparkle and squelch as well as getting you to think about the chemistry involved.

How to Book: No Pre-Booking needed!

How to find us: The entrance to the park is situated half a mile west of the village of Mintlaw on the A950 New Pittsligo road (Station Road)

Travel: Buses run regularly to Mintlaw from Aberdeen and Fraserburgh. Information on Stagecoach services 67, X67, X68 can be found on their website - www.stagecoachbus.com/timetables

Access: Parking on site. Disabled parking spaces at entrance Wheelchair accessible throughout.

Aberdeenshire Farming Museum

The award-winning Aberdeenshire Farming Museum at Aden brings alive the story of the North East's farming history in the restored estate home farm. This unique semi-circular steading is in turn surrounded by the beautiful woodlands of Aden Country Park which provide an attractive haven for wildlife. The Farming Museum portrays the story of north-east farming in three related interpretive themes: a display celebrating innovations in farming methods and implements from the 1780s onwards; the Horseman's House which recreates an impression of life in the 1920s, with daily demonstrations of making oatcakes over an open fire; and Hareshowe Farm a small Buchan farm transported nine miles and rebuilt at Aden. Discover the farm and its family, the Barrons, around the time electricity arrived in 1955.

Date: Throughout the summer season until the last Sunday in October. The park is open every day from dawn until dusk.
Time: 10:15am to 4pm (last entry 3:30pm) Thursday to Tuesday (closed Weds)
Cost: Free
Venue: Aberdeenshire Farming Museum at Aden Country Park, Mintlaw, AB52 4FQ
Contact: 01771 624590

Doors Open Day

**DOORS
OPENDAYS**
Get into buildings!

Doors Open Day will return to Aberdeen this year on Saturday 7 September. Join us for a day of discovery in buildings old and new across the city – all for free.

A number of new buildings will be open for this year, so be sure to follow us on Facebook to see what's happening - www.facebook.com/AberdeenDoorsOpenDay

Date: Saturday 7th September 2019

Doors Open Day with TechFest

**DOORS
OPENDAYS**
Get into buildings!
TECHFEST

Doors Open Day and TechFest are collaborating with the University of Aberdeen Institute of Medical Sciences. Look out for one of our workshops in the central atrium.

Date: Saturday 7th September 2019

Time: 10.00 -16.00

Cost: Free

Venue: Institute of Medical Science, Ashgrove Road West, AB25 2ZD

Motor Neurone Diseases: what's next?

caféMED

**UNIVERSITY OF
ABERDEEN**

Presented by Professor Simon Parson, Regius Chair of Anatomy, University of Aberdeen

The pan-Scotland Euan MacDonald Centre carries out research on how motor neurones work, looking at new drug treatments and improving quality of life for people with motor neurone diseases (MND). The Centre's researchers and clinicians will discuss progress and future developments in MND.

Date: Monday 9th September 2019

Time: 18.00 -19:30

Cost: Free

Venue: Suttie Centre, Foresterhill Rd, Foresterhill, Aberdeen AB25 2ZD

#madeinaberdeem

To the Moon and Back

Presented by Professor Martin Hendry, University of Glasgow

Aberdeen Astronomical Society would like to invite you to come and join us for this fascinating free talk celebrating this year's fiftieth anniversary of the Apollo 11 mission, as well as the formation of AAS. Join University of Glasgow astronomer Martin Hendry on a voyage of discovery as he explores the science and technology behind Neil Armstrong's giant leap for humankind. And if you've ever wondered about the (surprisingly persistent) claims that the Moon landings were faked, prepare for some debunking fun as Martin casts a critical eye over the most popular conspiracy theories – before looking ahead to the exciting future for human space exploration. Further information and tickets available at aberdeen-astro.eventbrite.co.uk

Date: Tuesday 10th September 2019

Time: 19.00

Cost: Free

Venue: MacRobert Hall, Robert Gordon's College, Schoolhill, Aberdeen, AB10 1FE

Y S A

How to Speak Gorilla

Presented by Dr Michael Leach

Michael Leach is a zoologist and author. Using his experience living with mountain gorillas of Central Africa, gathering material for a book, Michael conducts a practical workshop on getting close to wild apes. Or, in other words, "how to walk, think and speak like a gorilla" - one of the most iconic animals on the planet. The audience learns, and participates in, how to chest-beat, knuckle-walk and communicate to their family using belches.

Date: Saturday 14th September 2019

Time: 14.30

Cost: £4 / £3 concession

Venue: Fraser Noble Building, University of Aberdeen, Aberdeen, AB24 3UE

F Y S A

OPENING EVENT

Foxdog Studios:
Tomorrow's OfficePresented by Peter Sutton and Lloyd Henning,
Foxdog Studios

In a rare appearance outside, IT rock'n'roll superstars Lloyd and Pete bring their latest inventions from their cable-infested living room to TechFest with a brand-new show. Following last year's show Robot Chef, where the audience controlled the duo's robot chef from their phones, their new inventions include a musical mop, a souped-up sausage cannon and a pair of light-up bongo boots. Bring your phone, control the office of tomorrow. Featured in WIRED Magazine. Winner of Best Show at Leicester Comedy Festival, the Chortle Award for Innovation and two Malcolm Hardee Awards. "If you don't enjoy their brand of techy musical comedy, there must be something wrong with your hardware" - Four Star Rating, Time Out

Date: Monday 16th September 2019
Time: 19.30
Cost: £4 / £3 concession
Venue: ONE Tech Hub, Schoolhill, Aberdeen AB10 1FR

Tomorrow's Doctors:
Medical Students Leading
Cutting-Edge ResearchPresented by Aberdeen Student Society for Academic
Medicine, University of Aberdeen

Aberdeen Student Society for Academic Medicine have invited top medical student researchers to share their cutting-edge research with members of the public. There will be a series of short talks followed by a chance to mingle with the speakers. The University of Aberdeen is at the forefront of encouraging medical students to pursue a career as clinician scientists, and this event showcases the very best Aberdeen has to offer. This event is suitable for anyone who has any interest in science, healthcare or medicine.

Date: Tuesday 17th September
Time: 19.00
Cost: £4 / £3 concession
Venue: Fraser Noble Building, University of Aberdeen, Aberdeen, AB24 3UE

From ink on paper to 3D virtual mapping: A life in Cartography

Presented by Dr Michael Wood, Emeritus Senior Lecturer, University of Aberdeen

Join us for this fascinating insight to how map making has developed over the years, from the pen and ink drawings to the modern 3D virtual mapping world of computers. Dr Michael Wood has been President of the British Cartographic Society (the business and academic aspects) and is a member of The Society of Cartographers (the practical technical cartographers of the UK) and The International Cartographic Association (ICA). His work involved travelling the World between 1991-2003. He received an OBE for 'Services to Cartography' in 2003.

Date: Tuesday 17th September
Time: 18.30
Cost: £4 / £3 concession
Venue: Fraser Noble Building, University of Aberdeen, Aberdeen, AB24 3UE

Bridging the gap: patient involvement in design of care

Presented by Josefine Björkqvist and Sheela Tripathie, Institute of Applied Health Sciences, University of Aberdeen

Patient involvement in the design of care can help provide health services that are more relevant and responsive to the individual needs of patients. Come and learn about patient and public involvement in health research, policy and care, with examples from urological cancer care.

Date: Wednesday 18th September
Time: 7pm
Cost: Free
Venue: Belmont Filmhouse, 49 Belmont Street, Aberdeen, AB10 1JS

Social communication across the generations

Presented by Professor Louise Phillips, University of Aberdeen

As we get older, there are changes to the brain, cognition, motivation and health, which can influence the way in which we communicate with each other. There are also generational differences in the rules of social engagement. At this event, Professor Louise Phillips will discuss evidence about the nature of social communication changes with age, and the impact this can have on the lives of people of all generations.

Date: Thursday 19th September
Time: 18.30
Cost: £4, £3 concession
Venue: Fraser Noble Building, University of Aberdeen, AB24 3UE

Subsea Technology - Totally Technical

TechFest has teamed up with the Aberdeen Branch of the Society for Underwater Technology (SUT) to bring together an evening of quick-fire technology themed presentations. The SUT, along with its Member Companies, will produce and deliver up to nine (9) ten-minute presentations, all of which will showcase the latest innovations in subsea technology and processes.

"Subsea Technology – Totally Technical" will be a must-see event in this year's TechFest programme.

Date: Wednesday 18th September
Time: 17.30 for 18.00 start
Cost: £4 / £3 concession
Venue: Fraser Noble Building, University of Aberdeen, AB24 3UE

How to win the battle with Insomnia

Presented by Dr Olga Runcie, Somniance Ltd

Insomnia is the most common sleep disorder. Chronic insomnia is reported to affect up to 10% of the general population. Insomnia causes much distress to sufferers and is associated with low quality of life and a higher level of physical and mental illness. In this talk Dr Runcie will discuss how to deal with anxiety and fear about not sleeping. You will learn how to change your sleep routine in order to break a vicious insomnia cycle.

Scot Free Tours: Science and the City Tour

Presented by Scot Free Tours Aberdeen

Aberdeen scientists are responsible for an array of world-changing discoveries, from finding the cure to diabetes to the equation behind mobile phones. But what of the people behind these technological developments? Join Scot Free Tours to hear the human stories of scientific innovation, featuring a whole lot of backstabbing, unethical experiments and Margaret Thatcher's ex-boyfriend. You'll never see Aberdeen city centre in the same way again.

Rocks, Stars and Rockstar Rockets: Constellation Making, Handling Rocks from Space and Rocket Engineering Competition

Presented by CPS200 | University of Edinburgh | ROE
BIS Scotland

As part of this drop-in workshop, the participants will create their own constellation picture to take home, using supplied "night sky" postcards and sticky stars. For larger groups of participants or more determined individuals, there is also an option to create a number of constellations and put them up on a wall to make a "night sky" mural. As well as the constellation shapes, they will incorporate different coloured stickers to represent different stellar temperatures/sizes. They will also be able to handle some "rocks from space" and find out more about how we use Meteorites to understand evolution of our own Solar System. Weather and space permitting, there might perhaps even be a chance to make a paper rocket and launch it with a compressed air launcher. The activity will be complimented with discussing the cultural and scientific significance of the constellations and providing information about current work in Astrophysics research and technology development.

Date: Saturday 21st September
Time: 14.00 – 16.00
Cost: £1 pay on the door
Venue: Sir Duncan Rice Library, University of Aberdeen,
AB24 3AA

From Charles Piazzi Smyth to Scottish Spaceport: 200 years of reaching for the stars

Presented by CPS200 | University of Edinburgh | ROE
BIS Scotland

In this talk, we will link the rich History of Astronomy and Space Science in Scotland with present-day exciting new developments and ambitions, including the proposal to build first Scottish Spaceports. From Astronomers moving their instruments to higher and higher altitudes, to space entrepreneurs hoping to mine asteroids, 50 years since the Moon landings, a new Space Race seems to be starting off! What should we believe and what is "fake news"? Looking at how science, engineering and the rest of society are co-evolving ideas about the future Space Exploration and an off-Earth Economy - what are the opportunities in/for Scotland and how/should we take them? Building a new space ecosystem is not trivial – after all, who said it was not rocket science?!

Date: Saturday 21st September

Innovation at RGU – Stories from University Start-up Entrepreneurs

Presented by Robert Gordon University Innovation Team

How do you turn an idea into a viable business? At Robert Gordon University, we seek to develop a culture of entrepreneurship and support our community to turn their ideas into reality. This session will give an overview of our projects and introduce teams from our Start-up Accelerator to tell stories of the highs and lows of building a business and the lessons they have learnt in using technologies to prepare us for the future.

Date: Monday 23rd September

Time: 18.30 – 19.30

Cost: £4 / £3 concession

Venue: ONE Tech Hub, Schoolhill, Aberdeen AB10 1FR

HYPED

Presented by the University of Edinburgh Hyperloop Team

Join the University of Edinburgh Hyperloop team as they explain the design and manufacture of the Hyperloop; Elon Musk's concept for the future of mass transportation. The concept would see electrically propelled pods travel autonomously through a near-vacuum tube. The pods will be able to reach speeds comparable to aircraft and could see a journey such as Edinburgh to London shortened to 50 minutes.

Date: Monday 23rd September 2019

Time: 17.30 – 18.30

Cost: £4 / £3 concession

Fullerenes, Nanotubes and Nobel Prizes - the discovery of Buckminsterfullerene: Can C60 Prolong Your Life?

Presented by Dr Jonathan Hare, University of Sussex

The discovery of a new form of carbon in 1985 - the Fullerenes - has led to a new carbon mechano that promises amazing developments for the future. In 1996 the Nobel Prize for Chemistry was awarded for the discovery of these new and potentially important materials. This talk is an account of the scientific story, breakthroughs and latest research. It will also cover the most recent developments of people around the world eating it (in olive oil)! A 2012 rat study showed doubling of life, so people are now eating C60! Jonathan was directly involved with the Nobel Prize winning C60 research.

Date: Tuesday 24th September 2019
Time: 19.30
Cost: £4 / £3 concession

Oceans of Opportunity

The Underwater World of Science and Technology

Wednesday 13 November 2019; 10:00 - 12:00
Music Hall, Union St, Aberdeen AB10 1QS

Reasonable transport costs will be refunded. Register early to secure your place.

Did you know?

The oceans cover over 70% of our planet. We are all dependent on them for food, transport and vital resources. They affect our weather and even our future as a species. Yet most of us are unaware of the cutting-edge developments in underwater technology, or the science it is based on, largely because it is hidden from view.

SUT looks forward to welcoming schools to this exciting annual event aimed at P7 school children to learn more about the career opportunities that our oceans have to offer. Each session will include a structured mix of audio-visual presentations by leading industry experts from a range of underwater science and technology backgrounds.

Seashore to Sea Floor presented by Macduff Marine Aquarium

Remotely Operated Vehicles (ROV's) presented by ROVOP & school pupils who participated in the ROV MATE competition

Saturation Diving presented by David Smith

The Royal Institution's Mathematics Masterclasses 2019/20

Masterclass network

Sponsored by

TechFest is delighted to announce the new series of Royal Institution Mathematics Masterclasses. Organised by TechFest, with support from the Royal Institution, this series is available to S1 – S3 pupils from Aberdeen, Aberdeenshire and the neighbouring areas.

The Masterclass series is an excellent opportunity for keen mathematicians to meet with other like-minded students. Exploring a variety of different mathematical topics in a hands-on manner, these Masterclasses are delivered by enthusiastic speakers from industry, academia and education. Although primarily aimed at S2 pupils, eager S1 and S3 pupils are also welcome.

This series consists of Masterclasses held on Saturday mornings at Aberdeen City Centre venues.

The series runs from mid-November 2019 until March 2020 and is made possible due to generous sponsorship from Chevron.

The Masterclasses provide a great opportunity to explore different mathematical topics in hands-on workshops from professionals who use mathematics on a daily basis.

Please visit our website for full details
www.techfestsetpoint.org.uk/education/ages-over-11/maths-masterclasses

For more information please speak to your Maths Teacher or contact TechFest at
E: enquiries@techfest.org.uk
T: 01224 274348.

CREST Awards

The CREST Awards scheme is the British Science Association's flagship programme for young people. It is the only nationally recognised accreditation scheme for STEM project work (science, technology, engineering and mathematics) subjects, providing science enrichment activities to inspire and engage 5-to-19-year olds.

- CREST is delivered by educators (teachers, technicians, club leaders, home educators etc.)
- CREST can be run in schools, clubs, youth groups, other organisations or at home.

In addition to giving young people the opportunity to undertake hands-on science, CREST Awards also build skills that are transferrable to other subjects, further education and future employment (time management, project management, teamwork, communication).

You can use CREST to enhance your personal statement on your UCAS form.

To find out about doing CREST in Scotland, visit the TechFest website at www.techfestsetpoint.org.uk/crest or email marthagavan@techfest.org.uk.

Explorathon

Explorathon is Scotland's version of a rock and roll research weekender where Aberdeen's researchers meet the public at events dedicated to bringing the region's most exciting research out into venues and onto streets across the City.

Research and what it discovers plays a huge part in everyone's daily lives and Explorathon showcases the diversity of research taking place on our doorstep and what impact it can have on our daily lives.

Over the weekend of September 27, 28 and 29 researchers working on new ideas around health, social science and the natural environment will host a series of fun events such as a comedy night, talks, workshops, films and discussions everywhere from shopping centres to pubs, museums to cinemas.

Join us to explore, learn and talk with the researchers behind some of Scotland's most cutting-edge new research ideas.
For more details: www.explorathon.co.uk

Heroes of Tomorrow

An exciting event for S1 & S2 pupils Tuesday 21st, Wednesday 22nd & Thursday 23rd January 2020 at Robert Gordon University, Garthdee Campus, Aberdeen.

During the day pupils will be able to speak to Industry Professionals, participate in hands on workshops, experiments and demonstrations from a range of organizations including Robert Gordon University and Equinor.

For more information please contact Laura McHardie at TechFest.lauramcHardie@techfest.org.uk
